WHOLESALE TRADE-LIST

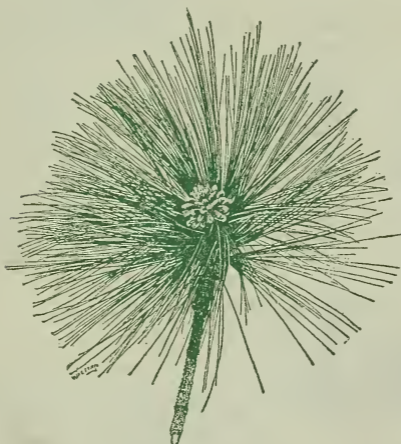

OF

Pinehurst Nurseries

199

OTTO KATZENSTEIN
MANAGER

PINEHURST, Moore County, NORTH CAROLINA

NORTH CAROLINA

Woody and Herbaceous Plants

and Other Ornamentals

Our stock has been regularly examined by the Entomologist to the North Carolina Commission for Controlling Crop Pests, who has at all times found it healthy and without indication of any of the scales or insects designated as dangerous by the Commission. *To further protect our customers all stock will from now be subjected to fumigation before packing.*

PLEASE NOTE:

Our **FREIGHT AND EXPRESS OFFICES** are at Pinehurst, N. C., on the A. & A. Railway, which connects with both the Southern and the Seaboard Air Line Railways.

TERMS: Cash or satisfactory reference from unknown correspondents. We allow a *discount* of 5 per cent. for cash with orders or for remittances within fifteen days from date of invoice. All accounts will be due (and subject to draft) sixty days from date of invoice, where no special arrangements have been made. Remit by express or postoffice money order, registered letter, bank-draft or check.

REDUCTIONS: 5 plants at 10-rates; 50 plants at 100-rates; 500 at 1,000-rates; 5,000 at 10,000-rates. Packing and boxing charged at actual cost.

SHIPPING DIRECTIONS: Precise directions as to kind of conveyance (mail, express, freight) and route are desired, or we shall ship at our own discretion. All goods travel at risk of consignee.

SHIPPING SEASON: We ship shrubbery from October 1st to May with hardly any interruption. We have built a storage cellar lately, and hope to be able now to take care of late orders as well. We advise, however, to *send all orders as early as convenient*, and we shall hold them as long as ever practicable if desired by consignee.

COLLECTED SHRUBBERY: Besides our nursery-grown stock, we ship very large quantities of collected shrubbery annually in solid carloads to many of the largest parks and have a well-trained force who handle the plants with every care. We ship well-developed plants, with good roots, that have not been exposed to the weather, and pack in damp moss. If not specially instructed, we prune the tops of most collected shrubs to save freight.

HERBACEOUS PLANTS: Quite a number of perennials we have now in nursery rows, while others will have to be collected on order. Some kinds can be identified only when in bloom. Orders on such will be filled in due season. We can collect very large quantities of most of our native perennials at very special prices and solicit correspondence from all interested.

An *exchange* of catalogs, seed-lists, botanical lists, etc., is desired.

THIS LIST CANCELS ALL PREVIOUS QUOTATIONS.

JAMES W. TUFTS,
Boston, Mass.

OTTO KATZENSTEIN,
Pinehurst, N. C.

Descriptions of most plants offered in this list will be found in
our Catalogue of American Seeds, which will
be gladly sent to any address.

Woody Plants.

Col., collected plants. S, seedlings. C, cuttings. All others are
nursery grown and transplanted.

Note reduced prices for collected plants.

CORDONS.

	Size	Each	10
Cordons —Single and double arm_____	3-5'	2.50	22.20
Apples :—(on Paradise) Alexander, Baldwin, Chenango, Early Harvest, Gravenstein, Jonathan, Northern Spy, Primate, Sweet Bough, Tompkins King, Wagner, Wealthy.			
Pears :—(on Quince) Angouleme, Anjou, Bartlett, Clapp's Favorite, Easter Beurre, Hardy Giffard, Howell, Josephine of Malines, Lawrence, Louise Bonne of Jersey, Superfin.			

These peculiarly trained dwarf fruit trees, of which we have still a number to offer, are especially adapted to private places, where they surely will be a permanent source of interest, pleasure and profit. Year in year out they will repay diligent care by sure crops of fruits of extra large size and of a very superior quality. The main trunk of our about three-year-old plants is bent 18 inches above ground in "T" shape or with a few with one arm. Our trees are covered with fruit branches and are ready to bear next year. We are ready to give any desired cultural directions.

Herbaceous Plants, Roots and Bulbs.

5 at 10 rates; 50 at 100 rates; 250 at 1000 rates.

Descriptions will be found in our catalogue of American seeds.

PINEHURST VIOLET-----clumps 1.00 3.00 20.00

There is no better all-around useful violet. The flowers are very large, deep-purple and sweetly fragrant, on remarkably long stems. Very free bloomer; easily forced. The foliage is dark-green and very large. Try it for next winter. We send single plants at 10 cents postpaid.

Sealch Brooch

Pinehurst
Nursery 1900

See page 3.

HOT-BED SASH.

The hot-bed sashes which we offered for the first time last year have very rapidly gained a well-deserved popularity, and we could send out very large quantities.

We are very anxious, however, to make them still better known, and have made such arrangements with the factory as to enable us to reduce the price for this season substantially so that we can offer now HOT-BED SASH, CLEAR CYPRESS, 3 x 6 ft. x $1\frac{3}{8}$ in., for 10-inch glass; unglazed; top and bottom rails, 4 in.; sides, 2 in.; bars are mortised into side-stiles, side-stiles into rails; weight of unglazed sash, 28 lbs.

For quantities less than 10 sashes.....	80 cents each.
“ “ over 10 and less than 50 sashes...	70 “ “
“ “ “ 50 “ “ “ 100 “ ...	65 “ “
f. o. b. factory.	

Prices for larger quantities, as well as for other sizes, and all other information, will be gladly given upon inquiry.
